**Statistics Request Overall Description**

On January 28, 2022, Research and Statistics received a request for a report comparing the racial/ethnic proportion of defendants receiving Persistent Felony Offender (PFO) charges in Circuit Criminal cases filed since 2017 to the racial/ethnic proportion of the population of Kentucky within each county.

CourtNet, which provides a summary of court cases statewide, was queried statewide for all Circuit Criminal cases (Case number type *CR*) including at least one charge of an offense indicated by these UOR codes:

UOR Code	Kentucky Revised Statute	Offense Description
073101	532.080(3)	PERSISTENT FELONY OFFENDER - FIRST DEGREE
073102	532.080(2)	PERSISTENT FELONY OFFENDER - 2ND DEGREE
909817	532.080	*OBS* PERSISTENT FELONY OFFENDER
999022	532.080	PERSISTENT FELONY OFFENDER **AOC**

This data was limited to those cases filed since 1/1/2017. A second query identified all Circuit Criminal cases filed since 1/1/2017. Defendant race and ethnicity was identified for each case in both compilations. For those cases in which demographic data was not entered, demographic data for the defendant was queried for any case cross-referenced with Cross Reference Type *GDJ* (Grand Jury) for one of the cases identified in either dataset.

The data related to Persistent Felony Offender Charges underwent an additional process for the verification of defendant. The identification of each defendant was queried for these cases using Criminal History Key, Social Security Number, Driver's License Number, date of birth, and name. The most valid identifier for each case is identified according to the hierarchy:

1. Criminal History Key
2. Social Security Number
3. Driver's License Number
4. Name with date of birth
5. Name without date of birth
6. Generic Identifier (Expunged, Record Destruction, John Doe)

## Statistics Request Overall Description

The validity of each identifier was indicated for each case. Using the best identifier available for each distinct defendant identified in this manner, Race and Ethnicity values were set for each case including this defendant.

United States Census 2019 Population estimate data for Jefferson County residents age 15 and greater is reported for comparison<sup>1</sup>.

## Statistical Report 22\_RS8005

The statistical report includes 20 pages. The first five pages include a bar chart visualization comparing side-to-side the racial/ethnic proportionality of the population, all Circuit Criminal cases filed since 1/1/2017, and all Circuit Criminal filed since 1/1/2017 cases including at least one PFO charge in each county.

Pages six through ten are a cross-tabulation of the number and percentage by race/ethnicity of the US Census 2019 population estimates for residents ages 15+ for each county. Pages 11-15 are a cross-tabulation of the number and percentage by race/ethnicity of defendant race for all Circuit Criminal cases filed since 1/1/2017 in each county. Pages 16-20 are a cross-tabulation of the number and percentage by race/ethnicity of defendant for all Circuit Criminal cases filed since 1/1/2017 cases including at least one PFO charge from each county.

### Statistical Analysis Considerations:

- The data file is a snapshot in time including data as it existed on the day it was queried – March 4, 2022.
- UOR Codes 909817 & 999022 had no records return for the requested.
- Counts of cases do not necessarily represent counts of unique individuals, as the same individual may have multiple cases in any given period of time.
- Reported charges consist of all original and amended charges within a case.
- Since additional defendant identification processes were run for the dataset including cases with Persistent Felony Offender charges that were not run for the dataset including all Circuit Criminal cases, some counties show a greater reliability of race/ethnicity identification for the Persistent Felony Offender dataset than for the broader dataset of all Circuit Criminal cases.
- Charges may receive temporary dispositions, such as Failure to Appear, Diversion, Grand Jury, etc. The case disposition date is set at the point when all charges have a disposition date reflecting either a permanent or temporary disposition. If a temporary disposition is later made permanent and the charge is not a post-disposition matter (contempt, parole violation, etc.), the case disposition date is not updated to reflect this new date.

Case counts are not counts of individuals as some persons may have multiple cases.

to the recipient, or to any third party using the system or information obtained therefrom, for any damages whatsoever arising out of the use of KYCourts/CourtNet.

**RESEARCH AND STATISTICS UOR CODE DISCLAIMER**

The Kentucky State Police (KSP) assigns the Kentucky Uniform Crime Reporting Codes (UOR Codes) to criminal offenses in the Commonwealth of Kentucky. The KSP official list of UOR Codes by KRS number and descriptor can be obtained at the KSP's website at [www.kentuckystatepolice.org](http://www.kentuckystatepolice.org).

The AOC assigns and maintains codes that are used within the Court of Justice Case Management System for statistical and reporting purposes. These codes are used to identify local and city ordinances, as well as codes for general administrative purposes. The AOC official list of UOR Codes with KRS number and descriptor can be obtained at the Court of Justice Website at [courts.ky.gov/aoc/statisticalreports](http://courts.ky.gov/aoc/statisticalreports). The AOC UOR Code Listing is for informational purposes only and the information is subject to change, reprogramming, modifications of format, and availability at the direction of the Administrative Office of the Courts (AOC).

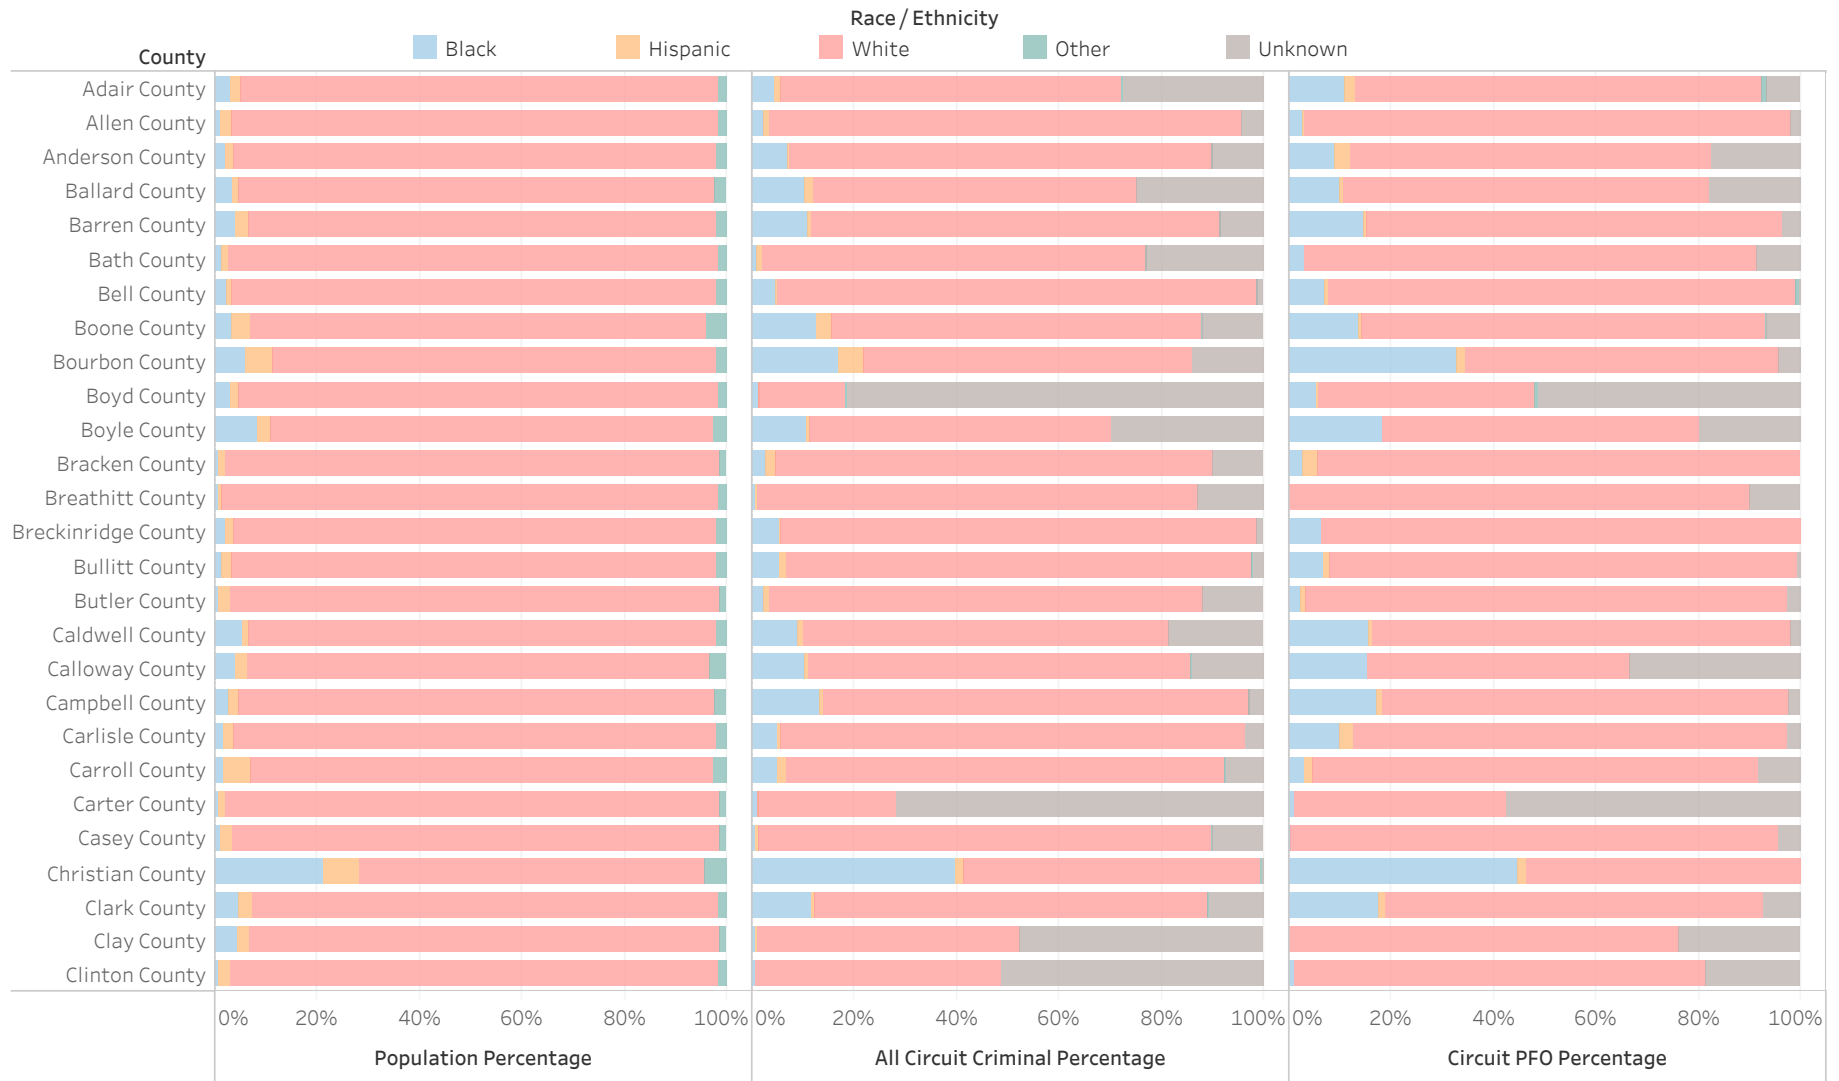

A query for data based on specified charges will include each UOR code specified and possible supplemental codes. Supplemental codes (or "ASCF" codes) to any UOR code include: 1) attempt, 2) solicitation, 3) conspiracy, 4) facilitation, 5) complicity, and 6) enhancement. In total, UOR codes contain seven digits. The first six digits are specific to that charge. The seventh digit indicates if there is a supplemental code. A "0" as the seventh digit means that is the primary UOR code and it does not have a supplemental code. If there are supplemental codes, the "0" will change to a 1, 2, 3, 4, 5, or 6 (the numbering corresponds to the list above). An enhancement does not exist on all UOR codes. When a supplemental code does not appear within a dataset, charge(s) did not occur during this period. The presence of "\*obs" within the description of a UOR code indicates an obsolete UOR code. However, the code is still present within the KYCourts/CourtNet database and may still be utilized. Not every UOR code included in the query will have charges associated with it in each calendar year examined. Some cases may contain multiple charges; therefore, charge counts may exceed case counts. The number of cases cannot be inferred as the number of individuals as multiple cases may have the same defendant.

The AOC disclaims and makes no warranty, express or implied, nor assumes any legal liability or responsibility, for the validity, accuracy, correctness, or completeness of any information that is available and/or obtained through this listing. The recipient is solely responsible for verifying the accuracy of the information received from the official owner of the UOR Codes, the KSP. Furthermore, the AOC shall not be liable to the recipient, the recipient's heirs and assigns, next of kin or to any third party, for any and all claims, demands, losses or damages arising from the usage of this list and/or information contained therein.
