Statistics Request Overall Description

On June 10, 2025, Research and Statistics received a request for a report of Court Designated Worker program complaints that were closed and detained in the calendar years 2022 – 2024 broken down by race.

Complaints were compiled from AOC CDWCMS, the case management and information system used by AOC Court Designated Workers (CDW), and this data was filtered to include complaints that were closed from 1/1/2022 to 12/31/2024.

Statistical Report 22_CDW8001

The report consists of one page with two tables. The table to the left displays complaints closed broken down by year and race. Percentages are calculated across each year so that each year can be compared to the others. The table to the right displays complaints closed and detained at intake (Intake Action: *Extension of Detention*) by year and race. Percentages for this table are also calculated across each year.

Statistical Analysis Considerations

- The statistical information presented is a snapshot in time as of the date the data was queried: June 24, 2025.
- Counts of complaints may not equal a count of youth since a youth may have multiple complaints.
