TRUANCY DIVERSION OUTCOME RATE

CDW DIVERSION AGREEMENTS TERMINATING CY 2007-2021 INCLUDING TRUANCY DIVERSION PROGRAM TERMS

March 24, 2022

Statistics Request Overall Description

On March 24, 2022, Research and Statistics received a request for a report of the success rate of Court Designated Worker (CDW) diversion agreements terminating from Calendar Year (CY) 2007 to 2021 including Truancy Diversion Program (TDP) terms.

Diversion Agreements were compiled from AOC CDWCMS, the case management and information system used by the AOC Court Designated Worker (CDW) Program and this data was filtered to include Diversion Agreements terminating from 1/1/2007 through 12/31/2021 in which the diversion agreements contained at least one *Truancy Diversion Program (TDP)* term or *Truancy Diversion Program (Promise)* term. Diversion Outcomes are defined by the Close Reasons associated with the charges related to the diversion terms.

Statistical Report 22_CDW8001

The statistical report consists of two pages. The first page includes a line chart indicating the outcome rate for diversion agreements each year. The vertical position on the chart indicates the percentage of diversion agreements terminating that year receiving the indicated outcome. The size of the line corresponds to the number of diversion agreements included in this percentage.

The second page presents the same data in a table. The table includes the percentage of diversion agreements receiving each outcome each year, the number of such diversion agreements, and the number of distinct youth receiving any of these diversion agreements.

A second table at the bottom of the second page presents additional information about the specific diversion term types identified as relevant to the Truancy Diversion Program. The table displays the number of diversion agreements having the TDP term only, the number of agreements having the Promise term only, and the number having both terms.

Statistical Analysis Considerations

- The statistical information presented is a snapshot in time as of the date of the compilation - March 24, 2022.
- Counts of diversion agreements do not equal a count of complaints or charges. A diversion agreement may relate to one or more charges from one or more complaints.

- Counts of diversion agreements do not equal a count of youth. A youth may have multiple diversion agreements within a given period of time.

Data Element/Field/Variable Requested

Database	Data Element/Field/Variable	Description/Definition
AOC_CDWCMS	Diversion Termination Date	<p>The date on which a diversion agreement ends. This corresponds to the dismissal of all related charges or a referral to court.</p> <p>Diversion Termination Date is reported per Calendar Year (CY). The Calendar Year is January 1 through December 31.</p>
	Diversion Outcome	<p>Indicates the way a diversion agreement ended. Diversion Outcomes are identified by the close reasons of the associated charges. The outcome of a given diversion agreement is the first of the charge close reason criteria identified below for an associated charge:</p> <ul style="list-style-type: none"> • Open: At least one associated charge is not closed. • Unsuccessful: At least one associated charge is closed with a formal court referral. No charges are open. • Successful: At least one associated charge is closed as a successful diversion. No charges are open, and no charges are closed with formal court referrals. • Dismissed: At least one associated charge is closed as dismissed for a reason other than a successful diversion. No charges are open, and no charges are closed with formal court referrals or successful diversions. • Other: All associated charges are closed with reasons other than those specified above.
	Diversions	<p>A count of separate diversion agreements. Each diversion agreement is made with a single youth and may be associated with one or more charges from one or more complaints. Each diversion agreement has one or more terms.</p>
